

SUCA - University Edition

AI-Powered Academic Intelligence for Engineering Colleges

Powered by Algoarn AI Solutions Pvt Ltd

Why SUCA?

SUCA is an advanced AI-powered academic intelligence platform built to modernize engineering education. Developed by Algoarn AI Solutions, SUCA integrates automation, analytics, and personalized learning insights into a unified system tailored for institutions.

Core features of SUCA

- Smart Student Insights Dashboard
- AI Test, Project & Assignment Generator
- Personalised Cognition Analysis
- AI Recommendation Engine
- Engagement Intelligence
- Risk Analysis

Customised features

- NBA/NAAC Accreditation Intelligence Suite
- Outcome-Based Education Engine
- AI-Powered Project Management
- Placement Readiness & Employability Analytics
- Department Dashboards
- Faculty Workload Automation Tools

How SUCA elevates your institution?

- Empowering your institution to become an AI-oriented campus
- Reimagining academic operations through automation
- Delivering continuous accreditation intelligence
- Empowering every learner with personalised growth pathways
- Driving placement outcomes with precision analytics
- Enabling leadership with transparent, data-driven governance
