

SUCA - School Edition

AI-Powered Academic
Intelligence for Schools

Why SUCA?

SUCA is an advanced AI-powered academic intelligence platform designed to support modern schools in improving learning outcomes, tracking individual student progress, and reducing manual teacher workload.

It brings smart assessments, learning gap detection, behavior insights, attendance analytics, and parent-friendly reporting all under one platform.

Core features of SUCA

- Smart student insights dashboard
- AI test, project & assignment generator
- Personalised cognition analysis
- AI recommendation engine
- Engagement intelligence
- Risk analysis
- Teacher efficiency insights

Customised features

- Homework & assignment tracking
- Real-time class & section monitoring
- Behaviour & discipline tracking
- Schoolwide performance trends
- Anytime consolidated reports
- AI-generated question banks & learning materials
- Student participation & engagement analytics
- Learning progress heatmaps
- Parent communication support
- Schoolwide leaderboard & motivational tools

How SUCA elevates your institution??

- Shifts your school from generic teaching to personalized student growth
- Ensures consistent academic performance across all students
- Helps teachers identify & support struggling students early
- Improves school wide results with targeted & personalised guidance
- Reduces teacher workload & boosts teaching efficiency
- Gives leadership clear, real-time academic visibility
- Strengthens parent trust with transparent progress insights
- Builds a culture of continuous improvement
- Positions your school as a modern, AI-driven school
